

INITIAL TIPS FOR ALL ENGLISH LANGUAGE EXAMINATIONS:

1. Research the structure of the exam - know how it works!
2. Learn techniques for the different exam sections - understand each type of question and what is expected.
3. Do not memorise answers – no question is 100% the same.
4. Learn specific and common vocabulary related to certain topics for each and every section.
5. Time Management – learn how long you need for each section and question, then plan accordingly.

Need help putting these tips to good use?
Ms. D. at *Ease into English* is here for you.
